

THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

11 January 1983

NOTE FOR THE DIRECTOR

SUBJECT: Visit of Nakasone

Last week you and Judge Clark briefly discussed preparations the Agency might make for Nakasone's visit. On further inquiry at the NSC I discovered what they really wanted was a paper that could be used as a departure point for an NSC that may be called on Japan this coming Friday. The Attached paper is designed to meet that need. Since Sigur is charged with preparing the NSC, it should be sufficient to send this paper to him instead of to Clark. Walt Raymond, who was in on some of the discussions, also asked to be included. I will take care of distribution if you have no objections.

By way of review, three OEA papers in support of the Nakasone visit will soon be ready: Japan's view of the Sino-Soviet problem; an overview of Japanese foreign policy; and Nakasone's economic policy options.
